FOREWORD

This is the first printing of the Unit 430 Encyclopedia of Membership. Its purpose is to preserve the acknowledgement of winners in this unit. As well, we hope to maintain a statistical record of all important Unit events.

All information has been taken from back-dated Matchpointers. The year 1972 is the earliest complete record of winners. We are eager to hear from any parties misrepresented within these pages, either by name, win, date, or point total.

Also in this issue are listed members who have served the membership through participating on the Unit 430 Board of Directors.
